

TRAINING DETAILS

The eight-day, residential, classroom element is held on the two consecutive weeks immediately prior to each exam window, so that delegates can benefit from concentrated practice and support in preparation for the API examinations. The online element must be completed in just under three months, prior to the residential course which includes revision sessions and mock examinations. RINA does not book API examinations for the delegates: they must do this directly with API.

DID YOU KNOW?

RINA is an authorised global training provider for the American Society of Mechanical Engineers (ASME) and a market leader in the provision of ASME and API inspector training courses for pressure systems and mechanical plant.

Details on all ASME and API inspector exam preparation courses and publications are now available at:
[https:// www.rina.org/en/technical-training](https://www.rina.org/en/technical-training)

Our regular programme of CPD-certified courses covers a diverse range of areas, from lightning and earthing to rail and software safety. AccessERA subscribers receive a 10% discount on a range of RINA course prices at the time of booking, when the booking is made directly with the training team. Subscribers can also use their credits to book on certain courses.

RELATED COURSES

- API 510 - Pressure vessel inspector
- API 570 - Pipework inspector
- API 580 - Risk Based Inspection (RBI)
- API 571 - Damage Mechanisms
